TO: Minerals File

FROM: Tony Gallegos, Reclamation Engineer *adg*

RE: Site Inspection, 5-M Inc., Silver Reef Mine, M/053/002, Washington County, Utah

Inspection Date: March 20, 1991

Inspection Time: 1:00 - 1:30 p.m.

Conditions: Cool

Participants: Tony Gallegos, Holland Shepherd, DOGM

This site was briefly revisited to determine if any changes had taken place since the last inspection.

In general, the site was found in the same condition as on April 12, 1990. The main gate remains locked, although there was evidence of recent vehicular traffic within the site. The processing area showed more signs of vandalism with more pieces of white PVC pipe strewn about. Water was present in both of the asphalt lined ponds to a depth of one foot or more. Two men were driving around on site and stated they were planning to search some areas with metal detectors.
